**Subject:** V C Summer Plant; I want my money back; no future charges.

**Greetings,**

This is not a carbon copy email.

The canceled VC Summer Plant is neither used nor useful, and as such should not be in a utility's rate base. I defer to the courts and to the Public Regulatory Commission to decide whether SCANA acted prudently with regards the canceled V C Summer Plant.

Therefore, (1) I want back all the money that I have already paid into the cancelled V C Summer Plant and (2) I do not want to pay any money into the future for the canceled plant.

Beyond the above, SCANA can stay in business, or SCANA can file for reorganization bankruptcy. Dominion Energy can buy SCANA or not. Another entity may or may not buy SCANA. I do not care. I just want my money back and no future payments.

Thanks and Regards, Michael Hajny
